

GRAHAM DANIELS

I believe that when a man gets serious about following God with all of his heart and seeking first God's kingdom – the outworking of this is God's desire to not only pour out His blessing on him but his children, and his children's children. Graham Daniels is a man I hold up in the highest of esteem because he is a living example of what I call a Godly father and husband – a hero in my world.

Graham's worldview on honouring his parents and having profound impact and influence on his own family is a living testament of God's design for family. Graham's strategic and purpose driven interactions with his family have spoken into my life as a husband, father and friend more than any other human. He is a man that, for me, encourages, promotes and demonstrates biblical principles and concepts of how to raise a Godly family and to lead them in Christ for generations to come.

Graham is a nationally acclaimed speaker, a strong leader in business and a respected authority in corporate consultancy and strategic business planning. He has held numerous corporate positions in the areas of Entrepreneurship, Business, and Economics over the last 15 years. He was the Founder of Australian Providence Foundation Inc. in 1992 as well as the Founder Australia Fair in 1987. These credentials alone are the markings of a man God has got a hold of. But in true Graham Daniels form, he knows that his greatest credential is his family and what they stand for.

Praise God for men that are prepared to stand and lead with integrity and with rock solid principles like Graham Daniels.
