RECOMMENDATION FOR GRAHAM DANIELS

Graham Daniels is a remarkable man. A rare Australian gentleman, he quickly became one of the top three out of twenty-five speakers at the TRENDS 2000 Conference. Graham spoke about "Financial Wisdom from an Australian Point of View." He marvelously blended heritage and righteousness as part of the building blocks of "financial wisdom." Conference delegates were left awed and breathless at the end of his session. It is no wonder Graham is in great demand as a speaker: he is a competent and compelling speaker, his depth of insight is enormous, he exudes authority and he projects a deep love of God, of God's Word, and of family. I highly recommend him as a speaker, resource, and man of God.
