

## *"Futureon Enterprises"*

September 2006

12 Diosma Dr.  
Morphettvale  
South Australia  
5162

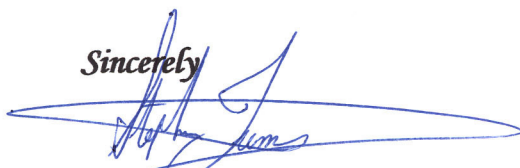

*I have known Graham Daniels now for nearly five years. In this time I have seen him to be a man fully committed to the Lord Jesus Christ, his family and their well being both physically and spiritually. He has been an inspiration to showing both Julie and I and others how important our families are. I have seen first hand how he places his family first.*

*He has shown me in friendship his generosity and kindness in spirit in the concerns we have shared for our communities and their long term moral and financial viability for the ongoing future.*

*He is a man who consistently seeks to look at the future and its challenges and its potential events and put strategies in place to help both his family and the communities around him, assisting giving the people and or community autonomy for themselves. I have seen him assist people on the ground level to help equip them with educational tools for their well being.*

*It is an Honour to count him as one of my friends.*

*Sincerely*

Steve Turner
